

Dear Parent/Guardian,

In conjunction with the Vernon Building Society, Stockport County visited your child's school as part of our extensive health awareness initiative that delivers some key messages about the importance of living a healthy lifestyle and the dangers of making bad choices. First team players took part in a interactive presentation and also promoted other key themes such as bike safety. Stockport County and Vernon Building Society are committed to promoting positive choices for all Primary School children in Stockport using Stockport County players as role models.
