Dear Parents and Carers,

All children in year 6 have been working incredibly hard so far this year. Both Miss Clarke and myself, would like to say a huge well done and thank you for the determination shown by all. However, it is no secret that the year 6 SATS tests are rapidly approaching.

During the school day, we have been supporting children with the necessary skill sets needed to succeed in their upcoming tests. We are aware that a number of children would like to continue their learning at home. Due to this, I have found a number of brilliant revision resources online to help support your child at home. The resources contain a mixture of interactive worksheets, tutorial videos, activities and games.

I will upload as many of the maths resources as possible to the year 6 pages on the school website. For tutorial videos- Youtube has a range of objectives covered and discussed, please look for the videos posted by 'ghammond'

For SPaG (spelling, punctuation, and grammar) resources I would recommend looking at the website for 'Pipworth Community School'. All of the resources can be located in the tab named 'Learning at home'

For reading revision, please continue to read frequently with your child at home. Another great way to develop the skills for reading are to practise completing word searches and 'Where's Wally' type activities. An app discussed and used in school is 'Monkey Wrench' which is a word search game. This encourages the children to think carefully about scanning across letters to locate words.

Good luck to all our Year 6 children!

Kind Regards

Miss Thomas
